## PROFESSIONAL SUMMARY

---

Results-driven Python Full Stack Developer with expertise in building scalable web applications using Django, FastAPI, and modern JavaScript frameworks. Proficient in both front-end and back-end development with hands-on experience in API integration, database management, and deployment on cloud platforms.

## TECHNICAL SKILLS

---

**Programming Languages:** Python, JavaScript, HTML5, CSS3

**Backend Frameworks:** Django, FastAPI, REST API, Node.js

**Frontend Technologies:** React.js, Next.js, Tailwind CSS, Bootstrap

**Databases:** MySQL, MongoDB, SQLite3

**Tools & Technologies:** VS Code, Postman, MySQL Workbench, MongoDB Compass

**Data Formats:** JSON, XML, AJAX, Fetch API

**Other:** Third-Party API Integration, Web Scraping, Google APIs

## PROFESSIONAL EXPERIENCE

---

### Make Clouds | Web Developer(January 2025 – May 2025)

- Developed responsive web applications using **HTML, CSS, JavaScript, and Bootstrap**
- Supported the integration of **third-party APIs** (including Google APIs) to add basic features to web applications.
- Implemented **web scraping** solutions to automate data extraction and processing
- Worked under senior developers' guidance to understand requirements and complete assigned tasks on time.
- Gained hands-on experience with frontend best practices, version control, and collaborative development

## PROJECTS

---

### 1. Food Ordering System

**Technologies:** HTML, CSS, JavaScript, Bootstrap, Python, Django, SQLite3

- Developed a comprehensive food ordering portal for single restaurant operations
- Implemented user authentication and authorization using Django's built-in system
- Created dynamic menu management system with real-time order tracking
- Designed responsive UI using Bootstrap for seamless mobile and desktop experience
- Utilized Django ORM for efficient database operations and migrations

## 2. Car Sales System

**Technologies:** HTML, CSS, JavaScript, Bootstrap, Python, Django, SQLite3

- Built a full-stack car dealership management application
- Implemented inventory management system with CRUD operations
- Developed search and filter functionality for vehicle listings
- Created admin dashboard for managing car listings and customer inquiries
- Applied Django migrations for database schema management

## TRAINING & CERTIFICATION

---

**Python Full Stack Development Course** (*June 2025 – February 2026*)

**Covered Technologies:**

- Frontend: React.js, Next.js
- Backend: Python, Django, FastAPI
- Databases: MySQL, MongoDB

**Certifications:**

- NPTEL – Python for Data Science
- Infosys Springboard – Professional Communication
- Participated in “Cloud Master using Python Flask Framework” Workshop

## EDUCATION

---

**Master of Computer Applications (MCA)**

Adhiyamaan College of Education, Hosur  
*Computer Applications*

*August 2023 – May 2025*  
**75%**

**Bachelor of Computer Applications (BCA)**

M.G.R College of Arts and Science

*July 2019 – June 2022*

**75%**

## LANGUAGES

---

**Fluent:** Kannada, Tamil, English, Telugu

**Basic:** Hindi
