

SHIVAKUMAR C

Python Backend Developer

+91 8925063168 | shivakumarchandrappam@gmail.com

LinkedIn: shivakumar-c-b55238312 | GitHub: shivakumarofficial | Portfolio: aboutshiva.vercel.app

PROFESSIONAL SUMMARY

Python Backend Developer with hands-on experience in building scalable web applications using Django and FastAPI. Skilled in REST API development, database management, authentication systems, and backend integration. Familiar with frontend technologies and deployment platforms like Render and Vercel.

TECHNICAL SKILLS

Programming Languages: Python, HTML5, CSS3

Backend Frameworks: Django, FastAPI

Frontend Technologies: React.js, Tailwind CSS, Bootstrap

Databases: MySQL, MongoDB, SQLite3

Tools & Technologies: VS Code, Postman, GitHub, MySQL Workbench, MongoDB Compass

Deployment Platforms: Render, Vercel

PROFESSIONAL EXPERIENCE

Make Clouds | Web Developer

January 2025 – May 2025

- Developed responsive web pages using **HTML, CSS, JavaScript, and Bootstrap**.
- Worked on **UI design, layout structure, and user-friendly interfaces**.
- Integrated frontend with **backend APIs** and handled dynamic data display.
- Fixed bugs, improved page performance, and ensured **cross-browser compatibility**.
- Collaborated with team members to deliver **real-time project features on time**.
- Followed clean coding standards and basic **version control practices**.
- Motivated Frontend Developer with 5 months of hands-on experience at Makeclouds, skilled in building responsive and user-friendly web interfaces using modern frontend technologies

TRAINING & CERTIFICATION

Python Full Stack Development

June 2025 – February 2026

- Core Python:** Data Structures, OOP, Exception Handling, File I/O
- Backend:** RESTful APIs using Django and FastAPI frameworks
- Frontend:** HTML5, CSS3, JavaScript (ES6+), Bootstrap
- Database:** MySQL – subqueries, joins, normalization
- Tools:** Git/GitHub for version control

- **Capstone:** Full-stack web application with Python backend, dynamic frontend, and SQL database

CERTIFICATIONS:

- NPTEL – Python for Data Science
- Infosys Springboard – Professional Communication
- Participated in “Cloud Master using Python Flask Framework” Workshop

PROJECTS

Food Ordering System

Technologies: HTML, CSS, JavaScript, Bootstrap, Python, Django, SQLite3

Description: Developed food ordering portal for single restaurant operations with user authentication and authorization. Features include dynamic menu management, real-time order tracking, responsive UI design, and efficient database operations using Django ORM.

Time-Off Management System

Technologies: Python, Django, HTML, CSS, SQLite, ReportLab

Description: Built a full-stack time-off management web app with role-based access (Employee, Manager, Admin). Features include leave request submission, approval/rejection workflow, holiday management, and PDF report generation.

Car Sales System

Technologies: HTML, CSS, JavaScript, Bootstrap, Python, Django, SQLite3

Description: Developed a car dealership management app with inventory management, CRUD operations, search and filter functionality for vehicle listings, admin dashboard for managing car listings and customer inquiries, and Django ORM for database schema management.

EDUCATION

Master of Computer Applications (MCA)

Adhiyamaan College of Education, Hosur
Computer Applications

August 2023 – May 2025
75%

Bachelor of Computer Applications (BCA)

M.G.R College of Arts and Science
Computer Applications

July 2019 – June 2022
75%

LANGUAGES

Fluent: Kannada, Tamil, English, Telugu

Basic: Hindi
